Beer – Bavaria’s fifth element!

From filters to fermentation, barrels to bungs, hops to handpumps, steins to sausages, pretzels to radishes, and dirndls to oompah bands, beer is a quintessential component of the Bavarian lifestyle. And the worldwide success of Bavaria’s beer and pub culture is what the Bavarian State Exhibition 2016 is all about.

The occasion being celebrated is the 500th anniversary of the Bavarian Beer Purity Law. The venue: Kloster Aldersbach in Lower Bavaria. With the magnificent Baroque church by the Asam Brothers, the brewery, large tavern, cabaret and music, this state exhibition offers a unique experience of Bavarian culture – only a short distance away from the famous “three-river” city of Passau.
